

# Youthful Polo Vivo takes center stage at Market Square Volkswagen Uitenhage

**After a successful launch of the New Polo, the Polo Vivo now takes its place under the spotlight at Market Square Uitenhage.**

Great hype has surrounded the launch of the Polo Vivo, which aims to offer the South African public greater price accessibility, priced from a mere R101 500 for the 1.4 2-door hatch. This cost effective pricing was made possible due to the high degree of localization used in manufacturing, as 70% of the parts are sourced locally.

In an effort to foster and maintain the highest levels of customer satisfaction and to further enhance excellent customer relationships – a factor which is given top priority at Market Square Uitenhage, a pick-up and drop-off service is offered to all clients,

whereby the client's vehicle is conveniently fetched at their home, and returned later for all its servicing requirements.

In addition, Market Square Uitenhage offers to bring demo vehicles to your home, even after hours. It is therefore no surprise that their Customer Satisfaction rating remains well in excess of 90%, a figure which is measured on a monthly basis.

The Polo Vivo offers buyers a complete package and value for money - its numerous features include air-conditioning, power-steering, central locking, airbags, and an alarm system, and is available in hatch or sedan. The fun and modern Polo Vivo promises to deliver buyers reliability and practicality.
